GET READY FOR THE VACATION

Don't wait until the eleventh hour. Make up your mind now what you will take along on the trip. Above all you need a correct timepiece. If your watch is either losing or gaining time we can put it in first-class order. See that you have a watch chain that will actually protect your watch. If the watch is out of order we can fix it; but if the chain shows wear you should get a new one—one worth having and one that is guaranteed by us.

WHY?

That little word and the interrogation point may mean little or it may mean much. When applied to roofing it means a good deal. The manufacturers of and dealers in nearly all "Composition," "Felt" and "Rubber" roofing tell you of their two and three-ply roofing and its superior qualities and then ask you \$1 to \$2 per square more than for single ply. When you examine roofing ask the weight. That's the test. Our Climax Asphalt weighs 60 pounds per square and is sold as low as the 35 and 40-pound kind. Investigate this before purchasing.

READ THIS AND PROFIT THEREBY!

This is a trying time of the year. Many discomforts arise from the heat. The best way to be comfortable is by bathing often, at least twice daily, and by using a liberal quantity of talcum powder. By bathing often one keeps the skin clean and the pores open, thereby allowing the entire body to "breathe freely," which means perfect health. The best soap to use for the bath and toilet is Picard's Complexion Soap, a non-injurious, healthful soap. Talcum powder keeps the skin cool, allays heat rash, stops chafing and is an excellent toilet requisite. We have a number of kinds.
